

## 21st CCLC Private School Consultation

Private schools are considered an eligible entity in relation to applying for 21<sup>st</sup> CCLC funds. The private school must meet the same requirements as all other eligible entities to apply on its own. If a private school is not an eligible entity for one of the following reasons listed below, then an LEA or consortium must consult with the private school:

- Does not meet \$50,000 grant minimum requirement
- Does not meet 40% free/reduced lunch count

Any LEA or REA that is applying for a 21<sup>st</sup> CCLC grant must consult with private school official and let them know they can apply with the REA or LEA as a consortium. They must also inform the private school officials to let them know the students that are on free and reduced can attend the program. Please attach minutes and agenda from this meeting.
